

# Taupo District Plan Chapter Review

Waikato region | December 2022

## What is the district plan chapter review?

Taupo District Council are reviewing particular chapters of the district plan. HortNZ submitted on the Strategic Direction (Plan Change 38) and the Rural Chapter (Plan Change 42).

## Summary of HortNZ submission

Council has not provided for activities that support horticulture including glasshouses, which are an already established activity in the region.

The Taupo region is a potential growth area for several crops due to the winter chill factor and geothermal power source. HortNZ sought a number of new definitions with a supporting rule framework. HortNZ also sought a strategic direction for the rural environment.
